

Drugs that are Not Covered*

Current 7/1/23

In addition to this list, newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication, to determine whether the medication will be covered and if so, which tier will apply based on safety, efficacy and the availability of other products within that class of medications. The current list of newly marketed drugs can be found on our [New to Market Drug list](#).

Note: Drugs FDA approved for weight loss, cosmetic use or lifestyle modification are not included in this list. They are not covered on your policy unless specifically purchased separately.
